

# **Renovation Update 12/19/17**

In an effort to keep our guests updated, we would like you to know the following:

When approaching the hotel you will see the construction yard across the street and fencing around the new building, which is still not open.

Hours of construction are Monday through Friday from 9am to 6pm only.

Most of the work being done at this time is on the interior of the new building and on the new fourth floor rooms. Our goal is to have the new building open the first part of January.

There are a few parts of the construction that will linger. Once we have the new done, we will need to reface the old. March and April are the targeted months to have scaffolding on the front of the existing building to redo the stucco and wood trim on the old building. While this is going on, you will be able to use the new building with its entrance and have full access to the hotel.

Please make sure to follow us on Facebook and Instagram for construction video updates. We really appreciate your patience and patronage during this project. Feel free to give us a call for more information related to the specific dates you plan to visit. (707) 923-2124

We hope to see you soon.
